Mean-effect genes (8 of 9 species with enriched terms)
Fitness-enhancing genes (4 of 9 species with enriched terms)
Motility, chemotaxis and adhesion
Proteolysis and protein secretion
Transport
Catabolism
Biosynthesis
Signalling and regulation
Stress response and DNA repair
Other metabolic processes
Other
E. coli
P. putida
P. fluorescens
P. simiae
P. stutzeri
C. crescentus
D. shibae
S. meliloti
E. vietnamensis
